Minimum Charge	\$159.28	\$693.40	\$716.70
Quantity Rate	\$3.82	\$3.82	\$3.82

**NOTES:**

1. Monthly Ready-To-Serve Charges and Quantity Rates for Years 2017-18, 2018-19, and 2019-20, are proposed to be adjusted for inflations in accordance with changes in the Consumer Price Index. Calculation of the change in CPI is proposed to be based on the changes in values for January for the years immediately prior to each fiscal year.
2. Monthly ready-to-serve charge is applied to all services. The quantity of water used above the 4,000 gallon/month initial allotment is an additional charge computed at the quantity rate.
